### Message from Mr. Pollard

Suggestions from Author Jon Gordon about raising positive children  
(continued from last week):

"Implement a No Complaining Rule – It's a simple rule that says you're not allowed to complain unless you identify one or two possible solutions to your complaint.

Teach them the Positive Shark Formula,  $E = P = O$  – We can't control the Events of our life, but we can choose to respond positively and have a positive outcome. This helps children stay optimistic and believe that their best days are ahead of them.

Feel Blessed instead of stressed – We can't be blessed and stressed at the same time. Thus a simple ritual is to help your children identify 3 things they are thankful for each day.

I encourage you to think of your child's mind like a garden. Each day you want to help them weed their negative thoughts and plant positive thoughts. One day of weeding and planting won't do much. However if you practice these strategies each day, the garden grows more healthy and vibrant."
